### Town of Castor Summer Projects

**Work with us to create a better place to live!**  
Adopt-A-Tree Program

The Town of Castor has started an ongoing program to assist in our Boulevard revitalization. This continual restoration will see the removal of the decaying poplars and replacing them with new trees. The average cost of removing a tree/stump, replacing the soil, and purchasing a new tree is over \$400.00 (actual cost of the tree is approximately \$95.00). Anyone interested in making a donation towards the Tree Program will receive a tax receipt. For more information on the program, please contact the Town office.

### Cemetery Project

The Town of Castor is planning cemetery work for the summer months. The projects for this summer will include: placing corner poles with solar lights, a "dedication tree" area, and a headstone restoration project. We have received some donations towards these projects. If families wish to donate towards any of these projects - please contact the Town Office at 403-882-3215. Your support is gratefully appreciated.

The Town of Castor is not responsible for errors or omissions printed in this brochure.
